

Philosophy

Little Lions Preschools offers a supportive classroom that allows children to expand their learning and development. It is our desire to offer children a safe and loving environment that inspires natural curiosity while fostering physical, intellectual, emotional and social development. We strive to provide nurturing relationships and positive early learning experiences. We value an emphasis on learning through open ended play in order to create memories and “ah-has” of discovery. The program's balance between teacher-structured and student-choice activities is comfortable and realistic for young children.
